The US Air Force was bombing North Vietnam because they wanted to stop the North Vietnamese communists from supporting the insurgency in South Vietnam led by the Viet Cong.

Many wholesalers will likely cease selling controlled substances altogether rather than risk running afoul of the DEA's new rules.

It balances the neurotransmitters in the brain to promote stable thought patterns and regulate mood.

Single payer has nothing to do with why prescription drugs are cheaper in Canada - Canada's single-payer insurance doesn't cover prescription drugs, employer plans do as in the US.
